

# Investment projects decided on in the budget session of Prime Minister Orpo's Government

In its budget session, the Government made the following decisions to proceed with investment projects, including projects under the investment programme:

Funding is proposed to be included in the 2026 budget for the following projects:

- Modernising the rail traffic control system and investing in repairs (implementation phase of the Digirail project)
- Reducing the maintenance backlog
- Updating the speed capacity of the Savo rail line
- Developing the main rail line, sidings in the Riihimäki–Tampere section and launching the main line refurbishment
- Building a new road to the Loviisa nuclear power plant (highway 1583 (Atomitie) between highway 170 and Saaristotie)
- Boosting the conditions for investments in the Inkoo region by improving the Satamatie junction and the Tähtelä junction
- Highway 749, Furuholm road (highway 7494) and Rantatie roundabout, Luoto (part of basic transport infrastructure management funding)
- Bridge over the River Lieksanjoki

Funding is proposed to be included in the 2026 amendment to the budget proposal for the following projects once the plans have been approved and possible distribution of cost liability has been settled:

- Oulu–Liminka double track
- Main road 4, Vestonmäki, Toivakka
- Highway 152, engineering plan for Hämeenlinnanväylä–Tuusulanväylä (ring road IV)

Funding is proposed to be included in the 2026 first supplementary budget for the following projects once sufficient plans have been drawn up and cost information is available:

- Deepening the Loviisa fairway
- Main road 51 Kela junction

The following are among the Government's urgent planning projects for which funding will be proposed in the budget for 2027 once sufficient plans have been drawn up and cost information is available:

- Junction arrangement on main road 9 in the centre of Suonenjoki
- Deepening the Vaasa port fairway
- Electrification of the Vaasa port railway
